PROJECTS

College Website — June 2024

Developed a fully responsive college website featuring course details, faculty info, and an interactive contact form. Used HTML, CSS, JavaScript for frontend and Node.js, MongoDB for backend. Optimized for mobile, tablet, and desktop viewing.

E-commerce Website — July 2024

Built a dynamic multi-page e-commerce platform with product listings, cart, and secure checkout.

Implemented user authentication and admin dashboard using MERN stack. Ensured a seamless UI with React.js and Tailwind CSS.

Sanmo Food Delivery Website — September 2024

Created a full-featured online food delivery system connecting users with nearby restaurants. Integrated real-time order tracking, online payment, and 30-minute delivery system. Technologies used: Node.js, Express, MongoDB, React.js, Tailwind CSS.
